Election statement – **Peter Gregory**

I am a UKCP registrant and a current UKCP trustee.

I have completed nearly four years as a trustee, and would like to continue with the work already started. It is an exciting time for UKCP.

In these four years, I have contributed to policy development and seen the introduction of a new senior management team. This team will drive the delivery of UKCP objectives. This is very positive.

If selected to continue as a trustee, I would want to contribute to enabling UKCP to focus on achieving statutory regulation, chartered status, governance and standards. Additionally, I would look forward to developing further links with the European Association for Psychotherapy. This could potentially provide opportunities for members.

Before becoming a psychotherapist, I was a project manager in the building services industry where I acquired organisational skills that have proved useful in my trustee work.

Overall, as a trustee, I would want to use my organisational and psychotherapeutic skills working within UKCP towards achieving its objectives.
